

REMARKS

Claims 1-10 are pending in the application. Claims 1-5 are rejected and claims 6-10 are objected to. Although the Office Action does not expressly indicate, Applicant believes claims 6-10 are objected to for being dependent on a rejected base claim and would be allowable if rewritten into independent form. The Office Action indicates the title of the application is objected to for being non-descriptive of the claimed invention and it also indicates claim 3 is objected to for being vague and indefinite.

In response, Applicant amends the claims and title as shown above and requests reconsideration. An amended Application Data Sheet is enclosed showing the amended title.

Respectfully submitted,
